In lesson 2, we explored how to access Children's Dental Plan information. In this lesson, we will take a closer look at how to navigate the Covered California Children's Dental Plan Rates Booklet to determine dental plan and pricing options.

Accessing Children's Dental Plans

The Covered California Children's Dental Plan Rates Booklet is available for download on the Covered California website www.coveredca.com. Access the Children's Dental Plans page by selecting **Children's Dental** from the Coverage menu.

Covered California Children's Dental Insurance

California children get expanded opportunities for better dental health, thanks to Covered California's offerings of children's dental insurance plans. There are three different product types available, depending on where the child lives:

- Dental Health Maintenance Organization (DHMO) – A type of dental plan product that delivers dental services by requiring assignment to a primary dental care provider who is paid a capitated fee for providing all required dental services to the enrollee unless specialty care is needed. DMHOs require referral to specialty dental providers. These products do not include coverage of services provided by dental care providers outside the dental plan.
- Dental Preferred Provider Organization (DPPO) – A type of dental plan product that delivers dental services to members through a network of contracted dental care providers and includes limited coverage of out-of-network services.
- Dental Exclusive Provider Organization (DEPO) – A DEPO works like a DPPO but does not provide coverage for services provided by dentists outside the network of participating providers.

Covered California Children's Dental Plan Standard Benefit Designs

Covered California children's dental insurance plans feature standard copayments, deductibles and coinsurance requirements.

Dental plans come in two actuarial value (the percentage of total average costs for benefits that a dental plan will cover) options:

1. 85 percent – Higher premiums, lower average out-of-pocket costs
2. 70 percent – Lower premiums, higher average out-of-pocket costs

Dental insurance plans must follow Covered California standard benefit designs. Standardizing benefits ensures that the selected plans define what the consumers get and limit the consumer’s out-of-pocket costs. The standardized benefit plans are as follows:

Children’s Dental Plan Standard Benefit Designs – DPPO

ENROLLEE PAYS – DPPO		
Coverage category	High	Low
Diagnostic & preventative	0%*	0%*

There are five Covered California children’s dental insurance plans:

- Anthem Blue Cross of California – DPPO
- Blue Shield of California – DHMO, DPPO
- Delta Dental of California – DHMO, DPPO
- LIBERTY Dental Plan of California – DEPO, DHMO
- Premier Access Dental and Vision – DHMO, DPPO

All plans are offered in all regions; however, LIBERTY offers only DEPO in some regions and only DHMO in others.

Children’s Dental Insurance Rates

Monthly premiums for the children’s dental insurance plans are based on region, similar to the health plan pricing. The premiums listed in the Covered California Children’s Dental Insurance Plans Rates Booklet are for “stand-alone” plans. These insurance products are purchased separately to cover dental services.

Below is an example of children’s dental insurance rates for Region 3 – Sacramento, Placer, El Dorado, and Yolo counties.

STAND-ALONE CHILDREN’S RATES		
PLAN	PRICE @ 70%	PRICE @ 85%
